“Electromagnetic brain imaging: A Bayesian perspective”

Kensuke Sekihara

1. **P143, the 3rd line in Section 7.4.1:**

$$\widehat{u}_S(t) \text{ and } \widehat{u}_S(t) \rightarrow \widehat{u}_S(t) \text{ and } \widehat{u}_T(t)$$

2. **P158, Eq. (7.95):**

This equation must be read

$$|\phi_R|^2 = \frac{|\langle \widehat{v} \widehat{x}^* \rangle|^2}{\langle \widehat{v} \widehat{v}^* \rangle \langle \widehat{x} \widehat{x}^* \rangle} = \frac{|\mathbf{a}^H \boldsymbol{\Sigma}_{vx} \mathbf{b}|^2}{[\mathbf{a}^H \boldsymbol{\Sigma}_{vv} \mathbf{a}] [\mathbf{b}^H \boldsymbol{\Sigma}_{xx} \mathbf{b}]}$$
